PROJECT WORK:

- **Hospital Management System Based On Aadhar Card:** This system provides online storage/updating and retrieval facility. This system promises very less or no paper work and also provides help to Doctors and operational staff. In this system, everything is stored electronically. So, very less amount of paperwork is required and information can be retrieved very easily without searching here and there into registers. Online appointment can be taken, this reduces the wastage of time.

In this application, there will be an **Online Registration System (ORS)**. By this ORS framework, we will be able to connect all the hospitals across India. To get the doctor's appointment, lab reports and blood availability you have to register at the Hospital portal with your **Aadhar number**.
