OBJECTIVE

Seeking a challenging role in a dynamic and innovative tech environment where I can contribute my skills to drive organizational growth while expanding my knowledge of emerging trends in the IT sector. I am eager to collaborate with dedicated professionals to further develop my potential and make meaningful contributions to the organization's success.

WORK EXPERIENCE

Nila Apps Pvt Ltd (Nov 2022 - Oct 2024)

Software Developer

- Troubleshooting and Debugging Backend and Frontend Issues: Proactively identified and resolved complex technical issues across the backend and frontend to ensure smooth functionality and optimal user experience. Leveraged tools like Chrome DevTools, Postman, and server logs to pinpoint and fix bugs in real-time, improving site stability and reducing downtime.
- API Development and Modification: Designed, developed, and maintained RESTful APIs, enabling seamless communication between the frontend and backend. Created new API endpoints to meet evolving customer requirements and optimized existing endpoints for faster performance.
- User Interface (UI) Design and Development: Designed and implemented user-friendly, responsive web interfaces with a focus on usability and aesthetics. Collaborated with the design team to translate UI/UX wireframes into functional web pages using HTML5, CSS3, JavaScript. Optimized web pages for mobile responsiveness and cross-browser compatibility.
- Developed robust backend logic, implemented database management systems (MySQL), and ensured real-time data fetching for enhanced user interaction. Delivered intuitive web applications with excellent performance and usability, ensuring a seamless experience across all devices.

Tata Consultancy Services (Oct 2020 - Apr 2022)

Process Associate

- Providing remote assistance and act as a single point of contact regarding IT issues
