---

### SUMMARY

Skilled Software Developer with 11 month of experience in PHP, Laravel, and front-end technologies, delivering innovative and efficient solutions. Adept at problem-solving, learning quickly, and driving innovation in project development.

---

### WORK EXPERIENCE

**Software Developer, Devazo Software Solutions** **March 2024 - Present**

- Designed, developed, and maintained web applications, ensuring efficient functionality and user-friendly interfaces.
- Debugged and optimized code to enhance application performance and reliability.

### WORKING PROJECTS

**Logistics Management System - ERP**

- Developed a comprehensive logistics management solution to streamline the process of picking up materials from customers, booking, and tracking deliveries using QRcodes.
- Leveraged Laravel and PHP for backend development, while using HTML, CSS, JavaScript, AJAX, jQuery, and Bootstrap for the frontend. The project utilized MySQL for database management and integrated REST APIs with JSON for data exchange. Employed QR code generation libraries for real-time tracking.

**Vendor Management System**

- To improve communication between vendors and the company, developed a comprehensive software solution with 12 integrated modules.
  - This solution optimized workflow management and ensured real-time data updates. Utilized Laravel and PHP for backend development, with a dynamic frontend built using HTML, CSS, JavaScript, and AJAX. Integrated MySQL for robust database management and implemented REST APIs for seamless data exchange.
- 

### EDUCATION

**Bachelor of BioMedical Engineering , 8.7** **August 2019 - June 2023**  
Rajiv Gandhi College of Engineering , Anna University, Chennai

**Class XII , 80** **June 2018 - April 2019**  
Shalom Matriculation Higher Secondary School, Tenkasi

**Class X , 88.4** **June 2016 - April 2017**  
Shalom Matriculation Higher Secondary School, Tenkasi

---
