FLUTTER AND WEB PROJECT

Portfolio [↗](#) June 2023 - July 2023

I have developed portfolio to learn more about web development and for people who want to contact me

Currency Converter App [↗](#)

In beginning of the Flutter learning, I wanted to get hands on experience and to know basic widgets, project structure and how the flutter works.so I developed the basic currency converting application.

Weather Forecast App [↗](#)

I wanted to work with APIs to learn more about flutter, so I developed weather Forecast application where I learned http request, request handling and certain widgets(FutureBuilder, StreamBuilder) etc.

Fees Management Site [↗](#)

October 2024 - expected February 2025

as of now, I'm developing website for MEASI School to manage fees payment invoice, transaction history according to mode (online or cash), generate a print of on date transaction, filters(fees types , classes,), options for uploading csv to push data to table etc..

MEASI Alumni site [↗](#)

September 2024 - October 2024

I've developed Alumni website that offered by my College (MEASI IIT Chennai),the project considers as internship for III Semester. the site for managing details of the alumni for Staffs, Students, administrator.

Event Management site [↗](#)

March 2, 2024 - March 18, 2024

I've developed this site to complete the MERN Stack Development course at FuturoFocus. I have reviewed this site by video recording to complete this course.

the video link : [Review Event Management site](#)
