

VISHVESHWAR. P

BACKEND DEVELOPER

+91 90479 74804 | visves777@gmail.com | K.Chettipalyam, Tiruppur.

CAREER OBJECTIVE

Experienced Backend Developer and Database Administrator with a proven track record of optimizing the online database performance. Adept at managing relational and MySQL databases, ensuring data security, and enhancing application scalability.

WORK EXPERIENCE

Kavintech Solutions

Jan 2025 – At Present

- Developed and maintained the backend infrastructure for a dynamic website with a custom Content Management System (CMS) panel.
- Collaborated with front-end developers to ensure smooth integration between the backend and user-facing components of the website.
- Built and optimized custom CMS features such as content creation, editing, categorization, and publishing workflows, allowing non-technical users to manage and update the website content with ease.

Truezor Soft

Sep 2023 – Sep 2024

- Developed a Fully Responsive Garments Company Website with an interactive UI, dynamic product catalog, order management system, and secure customer authentication.
- Designed and developed a Catering Website with an interactive user interface, online booking system, and menu management. The project was built to enhance the client's digital presence and customer engagement.

Higher Secondary Certificate – HSC.

Arts & Computer Application.

Velavan matric hr sec school

2017 - 2018

Secondary School Leaving Certificate – SSLC.

SKILLS

HTML	Css(Bootstrap, Tailwind)
Ajax / JQuery	Javascript
PHP / MySQL	Laravel (Framework)
Flutter (UI)	SQLite

COURSES

- Flutter Advanced Course - Clean Architecture with MVVM.
- Implemented MVVM (Model-View-View Model) architecture to separate UI from business logic.
- Gained hands-on experience with Provider, Riverpod, GetX (UI), and Repository Pattern.
- Developed a Flutter mobile app with SQLite database for offline data storage and syncing with a remote API.

TECHNICAL SKILLS

Git & GitHub

- Managed project repositories with Git & GitHub, ensuring structured version control.
- Used branching strategies (Git Flow, Feature Branches) for collaborative development.
- Resolved merge conflicts and handled pull requests & code reviews efficiently.

Laravel Framework

- Developed a feature-rich Laravel application, following solid principles.
- Used Laravel Artisan commands to manage database migrations and seeders
- Implemented API Authentication & Role-Based Access Control.
- Worked with AJAX & jQuery for seamless user interactions. Used Blade templates & Bootstrap/Tailwind for a responsive UI.

Flutter - Dart

- Proficient in building responsive and user-friendly UIs with Flutter. Experience in developing custom widgets, layouts, and themes for Flutter apps.
- Implemented basic login authentication using Firebase and other tools for user verification and session management.
- Skilled in using SQLite for local data storage and managing user sessions in Flutter apps. Developed a secure authentication system for a Flutter-based mobile application, utilizing SQLite for local data storage.
