## SKILLS

HTML | CSS | Bootstrap | JavaScript | Reactjs | React Native CLI | Livewire | PHP  
jQuery | Laravel | MySQL | Git | GitHub | HostGator | Hostinger | Postman | Razorpay | Firebase

---

## PROFESSIONAL EXPERIENCE

### NimatooZ Smile Mobility – PHP Laravel Developer

Jan 2024 – Nov 2024

- Worked on developing scalable web applications using PHP and Laravel framework.
- Integrated RESTful APIs, handled backend logic, and managed MySQL databases.
- Collaborated with frontend developers to build dynamic and responsive web interfaces.
- Focused on writing clean, reusable code following MVC architecture.

### Rahat IT Solutions – Software Associate

Dec 2024 - April 2025

- Developed web applications using Laravel, Livewire, and Reactjs, focusing on dynamic components and user-friendly interfaces.
- Integrated backend services with RESTful APIs and implemented Razorpay payment gateway for seamless transaction processing.

---

## PROJECT

### Instagram Clone

- Built a fully functional Instagram clone using React Native CLI, featuring user authentication, post creation, likes, comments, and profile management.
- Integrated Firebase for backend services including Firestore (posts/comments), Firebase Storage (image uploads), and Firebase Auth (user login/signup).

### ERP Solution – PHP Laravel

- Developed a complete ERP system with modules like Inventory, Sales, HRM, and Reports using Laravel. Focused on scalable architecture, role-based access, and real-time analytics.

### Umrah Management Web Application

- Developed a full-featured Umrah management platform using Laravel and Livewire with three login roles: Admin, User, and Agent.
- Integrated modules for booking, payment processing via Razorpay, status tracking, and document management.

---
