SUMMARY

Experienced Tech Lead with 8+ years in full-stack development and Agile project management. Skilled in PHP, React Js, CodeIgniter, Magento2, JavaScript, KnockoutJS, jQuery, OOP, MVC, and MVVM. Expertise in LAMP stack development, module creation, payment gateway integration, SEO, Components and RESTful APIs. Proficient in building responsive UIs using React, HTML, CSS, Bootstrap, and implementing third-party solutions like social media plugins. Strong background in version control, CI/CD, and Test-Driven Development.

TECHNICAL SKILLS

Programming Languages: : PHP, React JS, JavaScript, HTML5, CSS3, SQL, MySQL, SASS

Frameworks & CMS: CodeIgniter, Magento, Laravel, KnockOutJS, Bootstrap

Cache Technologies: Redis, Varnish

Version Control & CI/CD: Git, SVN, Bitbucket, Jenkins, Gitlab

Web Services: : REST APIs, AJAX, JSON

Development Tools : Postman, Jira, Confluence, Miro, Kiuwan, SonarQube

IDEs & Editors: PHPStorm, Visual Studio Code, Eclipse, Sublime Text, Notepad++

Methodologies: Agile (Scrum), SDLC, MVC, OOPs, MVVM, CLI commands

Containerization: Docker

PROJECTS

Tech Mahindra Aug 2021 – Present *Tech Lead PHP, React JS, Redux, Sonata CMS, HTML, Javascript, JQuery, Bootstrap, CSS, JSON, AJAX, SASS, Linux*

- Led the design and development of telecom services, including postpaid/prepaid recharge, online payment gateways, and SIM card activation, improving customer experience and operational efficiency.
- Spearheaded custom feature development and system integrations with third-party services and payment gateways.
- Acted as a liaison between clients and development teams, translating business requirements into technical specifications, providing technical leadership and ensuring high-quality code delivery.
- Integrated CI/CD pipelines using Jenkins and Docker, enhancing software deployment efficiency. Drove project timelines with Agile methodologies, ensuring timely feature delivery.
- **Projects :** Telefonica Germany (12 Brands)
- **Impacts :**
 - Implemented function in React JS, Redux, Typescript, Javascript and php to use the same feature in all the 12 brands. So that the feature can be reused with by all the required places to speed up the performance level and contribute to improved customer satisfaction rates.

Innopl Solutions Pvt Ltd Aug 2019 – Aug 2021 *Software Programmer Magento, KnockOut JS, HTML, CSS, AWS, MYSQL, Javascript, JQuery, AJAX Bootstrap, Linux*

- Successfully worked on 8+ Magento projects individually, demonstrating expertise in Magento development, module integration, and theme customization.
- Integrated and customized payment gateways including PayPal, PayPal Credit, Amazon Pay, AMEX, and Affirm to enhance checkout experiences.
- Performed module integration from top vendors such as Amasty, Magento Marketplace, Mageplaza, Aheadworks, Webkul, Magecomp, Mirasvit, Meetanshi, and BssCommerce.

- Customized and enhanced theme functionality across all pages to provide a seamless user experience.
- Worked on checkout page customizations using KnockOut JS, jQuery, and JavaScript to improve user interactions and payment flows. Created and Incorporated custom modules, including:
 - Digital signature functionality in the checkout process.
 - Restriction on product quantity (1 item per user) during checkout.
 - Customization of social media plugins to enhance social engagement.
 - Installed JQuery Zoom and Zoomout features to improve product display functionality.
- **Projects** : Gesner Estate Jewelry, Let to Wholesale, Gift Catolic,Ag Scientific,Beads Of Cambay , Divers Supply, Chairup
- **Impacts** :
 - Integrated digital signature functionality into the checkout process, ensuring secure transactions and enhancing customer experience
 - Achieved product quantity limitation (restricting users to add only one product to the cart) to streamline inventory management and prevent errors.
 - Customized third-party modules from leading vendors, Data Migration from M1 to M2,making them reusable across various projects, significantly reducing time spent on future implementations and increasing development efficiency.

Prodapt Solutions Pvt Ltd May 2018–Aug 2019 *Associate Software Engineer*
PHP,HTML,CSS,Javascript,JQuery,Ajax,MySQL,Windows,XAMPP,Apache TomCat

- Deployed features in an internal application used by BPS employees, streamlining daily operations and improving user experience.
- Developed a tracking tool for updating employee skill sets for Internal Job Posting (IJP) purposes, enabling easy management of employee qualifications.
- Created an intuitive admin interface to display employee skills in a tabular view, enhancing accessibility and efficiency for administrators.
- Added AJAX search functionality based on Employee ID and skills, improving the speed and accuracy of information retrieval.
- Utilized Core PHP, MySQL for backend development, and HTML, CSS, JavaScript, Bootstrap, jQuery, and AJAX for frontend implementation, ensuring a responsive and seamless user experience.
- **Projects** : Transaction LifeCycle Management(TLM), HRMS web Application, Leave Management System(LMS)
- **Impacts** :
 - Introduced and Applied a Skill Tracking Tool with new features for Prodapt BPS employees, streamlining the process of tracking employee skills, enhancing the Internal Job Posting process, and enabling HR to efficiently identify suitable candidates. This innovation reduced time and cost and made it easy to monitor work activities.

INQ Technologies Aug 2016 – Apr 2018 *Web Developer Codeigniter, Laravel,Drupal, HTML,CSS,Javascript, JQuery,Ajax, MySQL CLI,Algolia Search, REST,Linux*

- Engineered and maintained eCommerce solutions for healthcare and perfume industries, improving transaction success rates and compliance with industry standards
 - Structured responsive UI designs to ensure a seamless user experience across desktop and mobile platforms.
 - Customized Magento themes and enhanced platform functionalities to meet specific business requirements, improving overall performance and user engagement.
 - Customized and enhanced theme functionality across all pages to provide a seamless user experience.
 - Developed a website similar to Paperless Post using vanilla JavaScript, implementing core functionalities and enhancing user experience without reliance on external libraries or frameworks.
 - Created and maintained CRUD operations, optimizing MySQL databases for better performance and scalability.
 - Integrated third-party tools like live chat,Google Recaptcha implementation, and Algolia search, enhancing product discoverability and improving customer service interactions.
- **Projects** : Hcaps, Vaicitri, Go Station, Arthi Scans, Lister Technologies
- **Impacts** :
 - Performed caching, reCAPTCHA, and authentication to enhance website speed and security, improving overall performance and user protection.
