---

Software Developer with 3 years of experience in Angular, PHP/Laravel, and MySQL/PostgreSQL. Skilled in building scalable web applications, API integrations, and backend services. Seeking to contribute my expertise to dynamic projects in a growth-focused environment.

## SKILL SET

---

- Language – Angular JS (1.x)
  - Frontend – HTML5, CSS3, Bootstrap, JavaScript, JQuery
  - Framework – PHP/Laravel
  - Database – MySQL, PostgreSQL
- IDE & Tools – Git, Bitbucket, Jira

## PROFESSIONAL EXPERIENCE

---

### App Innovation Technologies

2023 – Present

#### Software Developer

- Developed dynamic and responsive web applications using Angular and PHP/Laravel frameworks for multiple client projects.
  - Integrated RESTful APIs into front-end applications and optimized them for performance and scalability.
  - Maintained and enhanced MySQL and PostgreSQL databases to support application development and operations.
  - Led initiatives to upgrade existing web platforms, improving loading speed and UI/UX performance across devices.
  - Collaborated closely with the testing and design teams to ensure high-quality deliverables and smooth deployments.
  - Used Git and Bitbucket for version control and managed tasks and issue tracking through Jira.
  - Participated in server-side deployments and ensured proper configuration and maintenance of production environments. Experience in working on MySQL for maintenance and support activities.
-

**Junior Developer**

- Worked on full-stack development projects, creating front-end interfaces using HTML5, CSS3, Bootstrap, and JavaScript.
- Built and maintained back-end services using PHP/Laravel, ensuring secure and scalable systems.
- Managed MySQL databases for web applications, performing routine maintenance and optimization tasks.
- Assisted in setting up server environments and deploying applications, gaining experience in Linux server operations.
- Contributed to API integration tasks and validated functionality using Postman for testing REST APIs.
- Participated in Agile development processes, attending daily standups, sprint reviews, and retrospectives.
- Supported troubleshooting efforts, fixing bugs, and improving application performance and security.

---

**EDUCATION**

---

**Bachelor of Technology (Information Technology)      2018 – 2022**

Sri Rama Krishna Engineering College, Coimbatore (2019 - 2022)  
Completed the degree with 7.2 CGPA in B.Tech IT

**Intermediate      2017 – 2018**

St.Xavier’s Higher Secondary School, Tirunelveli  
Completed the intermediate with 61.2%

**High School      2015 – 2016**

St.Xavier’s Higher Secondary School, Tirunelveli  
Completed the High school with 84.6%

---

**SOFT SKILLS**

- Communication
- Problem Solving
- Team collaboration
- Continuous Learning
- Adaptability
