OBJECTIVE

Highly skilled and motivated web developer with a passion for creating visually appealing and user-friendly websites. Seeking a challenging position where I can utilize my expertise in front-end and back-end development to contribute to the success of a dynamic organization. Committed to staying current with emerging technologies and trends in web development, I aim to deliver innovative solutions that enhance the user experience and drive business growth.

EXPERIENCE

15-03-2023 - 15-03-2025

- **Web developer**

Castouri technology

Responsibilities

1. Developing and maintaining websites: Designing, coding, and modifying websites according to client specifications or organizational requirements.
2. Front-end development: Building user interfaces and implementing responsive designs using HTML, CSS, and JavaScript frameworks.
3. Back-end development: Creating server-side logic, databases, and integrating APIs to power web applications.
4. Testing and debugging: Identifying and fixing bugs, ensuring cross-browser compatibility, and conducting thorough testing to optimize website performance.
5. Collaboration: Working closely with designers, stakeholders, and other developers to ensure seamless integration of design and functionality.
6. Content management: Updating and managing website content, including text, images, and multimedia elements.
7. Website optimization: Implementing techniques to improve website speed, performance, and search engine optimization (SEO).
8. Security implementation: Incorporating security measures to protect websites from vulnerabilities and ensuring data privacy.
9. Version control: Utilizing version control systems like Git to manage code repositories and facilitate collaboration with other team members.
10. Continuous learning: Staying up-to-date with the latest web development trends, technologies, and best practices to enhance skills and knowledge
