Work Experience

Team Lead and Developer

Svaan Tech

10/2023 - Present

Leading the WordPress development team to deliver high-quality, responsive websites and e-commerce solutions using WordPress, WooCommerce, and Elementor.

Managing end-to-end project lifecycles including requirement gathering, wireframing, client communication, task allocation, and team coordination.

Designing and developing custom WordPress themes and plugins tailored to client specifications.

Integrating third-party APIs and handling REST API design and implementation.

Collaborating with UI/UX designers to convert Figma and Adobe XD mockups into fully functional WordPress sites.

Mentoring junior developers and conducting regular code reviews to maintain code quality and best practices.

Successfully led and contributed to a React.js project involving the creation of a dynamic, component-based frontend application, integrating backend APIs and managing state with modern JavaScript frameworks.

Optimizing website performance, SEO, and security

to enhance user experience and meet business goals. Troubleshooting and resolving critical bugs and deploying updates across staging and production environments.

Let

Web Designer

Tridots Tech Pvt. Ltd

09/2014 - 09/2023

Started career as a Graphic Designer, creating marketing assets, UI mockups, and branding materials using Adobe Photoshop, Illustrator, and other Adobe Creative Suite tools.

Designed visual content for websites, mobile apps, and social media campaigns with a focus on user engagement and brand consistency.

Transitioned into a Web Designer role, taking responsibility for translating UI/UX designs into responsive front-end code using HTML5, CSS3, Bootstrap, and JavaScript.

Worked closely with developers and project managers to deliver visually appealing and user-friendly websites.

Created interactive prototypes and wireframes using Figma to streamline client approvals and developer handovers.

Contributed to multiple WordPress projects, customizing themes, layouts, and content structures to match client requirements.

Ensured cross-browser compatibility, mobile responsiveness, and adherence to modern design principles.

Maintained and updated existing websites, implemented SEO best practices, and provided design support to the development team as needed.
