WEB DEVELOPER

Web Developer with 2 years of experience in building and maintaining dynamic web applications using PHP, CodeIgniter, and Laravel. Skilled in developing scalable back-end systems, integrating APIs, and applying secure, efficient coding practices. Strong in MVC architecture, RESTful development, and database design. Committed to writing clean, maintainable code and collaborating in fast-paced teams.

TECHNICAL SKILLS

- Languages : PHP, HTML5, CSS3, JavaScript, SQL
 - Frameworks: CodeIgniter, Laravel
 - Database: MySQL
 - Tools: Git, cPanel, Postman, Chrome DevTools
 - Others: AJAX, Bootstrap, RESTful APIs, JSON, XML
-

PROFESSIONAL EXPERIENCE

Shriyaditha Graphics Universe

June 2023 - June 2025

Key Projects:

Rhomaquatix - (<https://www.rhomaquatix.com/>)

- Built a dynamic e-commerce website with AJAX-based cart and integrated Razorpay payments (UPI, card, net banking) using CodeIgniter. Integrated smooth frontend-backend communication for better performance

Choice Natural - (<https://www.choicenatural.co.uk/>)

- Developed Add to Cart with dynamic quantity and pricing via AJAX, integrated secure Stripe 3D payments, and implemented a shareable Wishlist system

Delespesialisten - (<https://www.delespesialisten.no/>)

- Developed and maintained a car parts e-commerce platform with dynamic vehicle-specific API integration.
- Implemented a recursive sidebar for category navigation and integrated Zendesk for seamless order tracking. Built email/phone verification using Twilio, and handled bug fixes, performance optimization, and feature updates

Vsk Business Consultant- (<https://www.vskbusinessconsultant.com/>)

- Developed a business consulting website with a custom admin panel tailored for a blind user, featuring full keyboard navigation and browser-specific key handling for Chrome and Firefox. Enabled independent management of services and updates.

Booksgrub - (<https://booksgrub.com/>)

- Implemented role-based routing in Laravel using service providers to manage access for admins and customers.
- Developed and optimized the Shop page with product listing, category and price filters, wishlist-based experience, and search functionality for better user navigation
