PROFILE

Detail-oriented Software Developer with 3 years of experience in web development, specializing in PHP, MySQL, JavaScript, HTML, and CSS. Proficient in building and maintaining eCommerce platforms, integrating secure payment gateways, and optimizing website performance for seamless user experiences. Passionate about developing efficient, secure, and user-friendly web solutions that drive business growth.

EXPERIENCE

Novalnet e-Solutions Pvt. Ltd.

2022-Present

Software Developer

Experienced developer specializing in integrating payment and subscription plugins for Shopware 6. Skilled in implementing secure payment gateways, subscription models, and seamless checkout experiences using PHP, Symfony, and Shopware APIs. Focused on performance optimization, security compliance, and ensuring a smooth eCommerce experience. Experienced in troubleshooting, enhancing plugin functionality, and collaborating with teams to deliver scalable and efficient payment solutions.

FirstMan Corporate Services LLP

2021-2022

Junior PHP Developer

Responsible for developing and modifying features while ensuring cross-browser and mobile compatibility using PHP, JavaScript, HTML5, CSS, and MySQL. Tasks include implementing Create/Read/Update/Delete (CRUD) operations in MySQL using PHP and AJAX, as well as working on franchise.firstmanfiling and crm.firstmancorp platforms. Additionally, developed backend user interfaces for existing databases and built PHP and CSS systems to address cross-platform and cross-browser text display issues.

Naveen Fire Alarm Systems India Pvt Ltd.

2018-2021

Production Engineer

Production Engineer specializing in testing, assembling, and troubleshooting addressable and conventional fire alarm control panels. Skilled in ensuring the functionality and reliability of fire alarm devices through rigorous testing and quality checks. Focused on maintaining safety standards and optimizing system performance.
