- Designed numerous marketing programs (Brochures, Newsletters, Presentations and Business cards)
- Proficiency in web designing applications(Wordpress, Dreamweaver and MicroSoft Office Packages)
- Able to create website and edit existing templates(html, js)

EDUCATION

PROJECTS AND ACCOMPLISHMENT

- Debugging and Feature Development For UPS Official Plugin
- Worked in shipping based SAS product Myshipi (myshipi.com)
- Developed Many Sites (webooz.in, kams.ae, artic9.com, petersradiant.com etc..)
- Worked with caratlane a Tanishq Partner for coding Mail Templates
- Built a complete eCommerce website (inner-radiant.com) in just 12 days, including text content and banner images, and improved performance score from 40% to 66% with tuning.
- Designed a WordPress plugin (reweby) using rrweb-player to record admin/staff **flows and actions**, with logging and real-time notifications.
- Worked on **SynStocks** wordpress plugin for syncing products between multiple PrestaShop stores and integrating with **Facebook Marketplace**.
- Developed a plugin for dolibarr for syncing products stocks from woocommerce site
- Developed addon Modules for prestashop
 - Advertisement Popup (approved by prestashop marketplace)
- Developed custom modules for product imports (bulk/scheduled), third-party integrations, and seamless synchronization with external systems.
- Proficient in theme customization and migration, ensuring responsive, optimized, and user-friendly storefronts while also fixing and adapting modules to work seamlessly with the new theme.
- For custom functionalities, I prefer using modules or override concepts rather than editing core files, ensuring better maintainability and upgrade safety.
- Developed plugin for Opencart with my own idea
 - [Zoom Product](#)
 - [Buy Now Button leads to checkout](#)
- Worked with LLaMA, LLaVA like LLM and built RAG pipelines using vector databases to improve search and information retrieval.
- Currently developing a WooCommerce plugin to predict required stock levels, helping businesses reduce storage space usage and minimize investment costs.
