

# VIGNESH VIJAYAKUMAR

Experienced PHP Developer

## WORK EXPERIENCE

### AdBagel Media Pvt Ltd, Chennai.

*Startup Service-based company specializing in custom website development.*

Senior Developer 03/2024 – 02/2025

- Led development of custom web applications using Core PHP and CodeIgniter, ensuring scalable and maintainable code.
- Designed and optimized responsive UI components to enhance user experience and meet client specifications.
- Managed end-to-end deployment on cPanel servers, including daily updates, server storage, domain expiration (GoDaddy), and SSL certificate renewals.
- Set up project environments by configuring databases, uploading files, and performing comprehensive testing on live servers.

### CA Infotech India Pvt Ltd, Chennai.

*Product-based company focused on developing Dentulu, a digital platform for hospitals.*

PHP Developer 04/2023 – 09/2023

- Developed and maintained dental clinic management modules using PHP and CodeIgniter framework.
- Implemented multi-channel appointment notifications via SendGrid (email), Twilio (SMS), and OneSignal (push for Android/iOS).
- Resolved client-side validation issues and collaborated with UI designers to build new forms as per functional requirements.
- Coordinated with QA teams to validate end-to-end notification workflows and ensure reliable system behavior.

### SR Infosoft, Chennai.

*Service-based company specializing in website and application development.*

Software Engineer 07/2022 – 04/2023

- Developed dynamic web applications using Core PHP and CodeIgniter tailored to client requirements.
- Designed and structured front-end layouts using HTML, CSS, and basic UI components.
- Conducted thorough functional testing before client delivery to ensure bug-free performance.
- Provided post-deployment support by resolving client-reported issues and implementing fixes promptly.
