

Snegha

Software Developer

Professionally adept with over 2 years of experience as a Developer, specializing in crafting dynamic SOFTWARE PRODUCTS and WEB APPLICATIONS. Renowned for solving complex challenges and delivering efficient, user-centric solutions. Highly skilled in PHP, React, and database management systems like MySQL and PostgreSQL. Experienced in app conversion and publishing Android applications, ensuring seamless functionality and deployment. Proven ability to collaborate effectively in cross-functional teams, delivering high-quality projects on time and within budget. Expertise in optimizing application performance and implementing best practices in coding and design. Committed to continuous learning and staying at the forefront of emerging technologies to provide the best solutions for diverse project requirements.

Work History

2023-01 -

Software Developer

2025-03 -

Daypay Technologies LLP, Nagercoil

- **Proven Expertise in React Development:** Skilled in building responsive, dynamic, and user-friendly web applications using React and its ecosystem, including Redux, React Router, and Context API.
- **PHP Mastery:** Extensive experience in developing robust backend solutions and RESTful APIs using PHP frameworks like Laravel and CodeIgniter, ensuring secure and scalable architectures.
- **Android App Publishing:** Successfully converted and published multiple Android applications on the Google Play Store, ensuring compliance with store guidelines and delivering a seamless user experience.
- **App Conversion Specialist:** Adept at converting existing web applications into mobile-friendly Android apps, enhancing user accessibility and market reach.
- **Database Management:** Proficient in designing, optimizing, and managing relational databases such as MySQL and PostgreSQL, ensuring high performance and data integrity.
- **API Integration Expertise:** Experienced in integrating third-party APIs, including payment gateways, social media platforms, and geolocation services, to enhance app
