### Executive Summary

---

- As a Frontend Developer with 2 years of experience, I have gained hands-on expertise in building responsive, user-friendly, and performance-optimized web applications. I am proficient in core frontend technologies such as **HTML5**, **CSS3**, and **WordPress**, and I am committed to delivering high-quality digital experiences by focusing on seamless user interfaces and efficient functionality.
- I am dedicated to continuously expanding my knowledge of the latest web technologies and best practices, ensuring that my solutions are innovative, scalable, and future-proof. With a strong passion for creating exceptional digital experiences, I am eager to continue growing as a frontend developer and contributing to the success of future projects.

### Tools & Technologies

---

#### Development:

- HTML
- CSS
- Javascript
- Wordpress
- Shopify

#### Framework:

- React Js

### Professional Experience

---

**Front-End Developer**  
*Revaa Digital Solutions*

2023 – present  
Chennai

#### Roles and Responsibility

- Work alongside UI/UX designers to implement designs and create a seamless user journey.
- Optimize the performance of websites by implementing techniques like lazy loading, code splitting, and image optimization.
- Ensure websites are mobile-friendly and display properly across different screen sizes and devices.
- Keep up with the latest frontend development trends, tools, and best practices to ensure that the web applications are modern, scalable, and secure.
- Learn and adopt new technologies to improve workflow and project outcomes.

## Projects

---

### Website Development

*I have created more than 20 client websites for various industries such as colleges, hospitals, hotels, solar companies, and more. I develop websites according to client requirements, ensuring that all functionalities are fulfilled effectively.*

#### Roles and Responsibilities

- Creating user interfaces and implementing functionality based on client requirements, ensuring efficient solutions such as page speed optimization and fast loading times.
- Understanding client requirements and leading the team to meet those needs effectively, ensuring the delivery of high-quality websites that align with client goals."
