

» Professional Summary

- Dedicated Software Developer with over 5 years of experience specializing in PHP frameworks such as CodeIgniter and Laravel.
- Proficient in developing dynamic websites, custom software solutions, and enterprise applications, with a strong focus on API integration and efficient database management.
- Adept at working collaboratively in team environments, solving complex technical challenges, and consistently delivering high-quality results. Passionate about continuous learning and committed to driving innovation and success in software development.

» Technical Expertise

- **Programming Languages & Frameworks:** PHP (CodeIgniter, Laravel, SuiteCRM), JavaScript, HTML5, CSS3, Bootstrap, AJAX, jQuery.
- **Database Management:** MySQL, SQL.
- **Web Development:** Expertise in dynamic website creation and responsive design techniques.
- **Development Tools:** XAMPP, NetBeans, Eclipse, Sublime Text, Notepad++, Git
- **Operating Systems:** Hands-on experience with Windows environments.

» Experience

Company: GoDB Technologies

Aug 2021– Sep 2025

Tool: Apache, SQL

Client: Godfrew Phillips India Ltd

Oct 2024 – Sep 2025

Languages: PHP (CodeIgniter Framework), MySQL, JavaScript, jQuery

- Designed and developed custom modules to manage business workflows, ensuring alignment with organizational requirements.
- Utilized JavaScript and jQuery to create interactive, responsive user interfaces, enhancing usability and employee productivity.
- Built and optimized SQL queries and database schemas to handle large datasets and ensure accurate reporting and data retrieval.
- Integrated RESTful APIs for seamless data sharing and communication between internal and external systems.
- Conducted debugging and troubleshooting to ensure the reliability and performance of applications across multiple use cases.
- Collaborated with cross-functional teams to understand requirements, address technical challenges, and deliver robust solutions within deadlines.
- Delivered high-quality software solutions that supported operational excellence, earning commendations from stakeholders.

Mobile : +91 8122786678

Mail : suganthi290896@gmail.com

Client: Aditya Birla Health Insurance

Aug 2021 – Sep 2024

Languages: PHP (Suite CRM), JavaScript, jQuery

- Built and optimized key modules for policy issuance, renewals, and claims settlement, ensuring accuracy and compliance with insurance regulations.
- Designed and developed custom modules within Suite CRM using PHP to support critical insurance operations, such as policy tracking and customer engagement.
- Utilized JavaScript and jQuery to create dynamic, user-friendly interfaces that improved usability and ensured real-time functionality.
- Integrated APIs [Payment Gateway (RazorPay & Juspay), Premium computation] and third-party tools with Suite CRM for automated data synchronization and improved workflow efficiency.
- Conducted testing and debugging to ensure application stability, scalability, and compliance with industry standards.
- Collaborated with cross-functional teams to gather requirements and implement solutions aligned with business objectives.
- Successfully delivered a highly customized Suite CRM solution tailored to the unique needs of the insurance domain, earning positive feedback from stakeholders.

Company: Kasthuri Groups

Oct 2020– Aug 2021

Language: PHP[Codeigniter Framework]

- Developed and optimized core HR functionalities, including employee database management, payroll processing, and attendance tracking.
- Created transport management modules encompassing vehicle scheduling, trip tracking, and resource allocation to improve operational efficiency.
- Designed secure and scalable APIs to integrate HR and transport systems, enabling real-time data synchronization across platforms.
- Conducted thorough testing and debugging, ensuring that the application delivered reliable and accurate results under various scenarios.
- Collaborated with stakeholders to define requirements and delivered customized solutions aligned with business goals.

Company: Ram Technologies

Aug 2019– Jul 2020

Language: PHP[Laravel & Codeigniter Framework]

- Designed and developed robust application modules for various business processes, ensuring scalability and performance.
- Utilized Laravel's advanced ORM (Eloquent) for efficient database interactions and implemented relational database models.
- Developed dynamic user interfaces and features using the CodeIgniter framework to enhance user experience and accessibility.
- Integrated third-party APIs to enable seamless data exchange and extended the functionality of applications.
- Conducted performance optimization for both Laravel and CodeIgniter-based applications to ensure fast load times and smooth functionality.
- Collaborated with cross-functional teams to define project requirements, create prototypes, and deliver high-quality outputs on time.

» Education

Year	Examination	University/ Institution	Performance
2018	B.E. Computer Science Engineering	Adhiparasakthi Engineering College	7.3 CGPA
2014	HSC(Matriculation)	Shri.M.ct.Muthiah Memorial Matric Higher Secondary School	58.75%
2012	SSLC (Matriculation)	Shri.M.ct.Muthiah Memorial Matric Higher Secondary School	79.8%
