

JENASIS DENILA

S O F T W A R E D E V E L O P E R

PROFILE

Experienced PHP Developer with 3+ years of expertise in building secure, scalable payment plugins, system integrations, and custom web solutions. Skilled in PHP, MySQL, JavaScript, and Laravel, with strong experience in WooCommerce, Shopware, and Moodle. Adept at working in Agile teams, solving critical issues, and delivering high-quality, performance-driven solutions. Seeking opportunities as a PHP Developer / Plugin Developer / Web Application Developer.

PROFESSIONAL EXPERIENCE

Software Developer

Novalnet e-solutions Pvt Ltd | 2022 - 2025

- Designed and developed a custom payment plugin for e-commerce and educational platforms
- Implemented client-specific features, enhancing transaction reliability and user experience.
- Utilized Git and GitHub for version control within an agile development environment.
- Debugged and resolved live issues in client systems, minimizing downtime and ensuring smooth operation.

PROJECTS

WooCommerce (WordPress)

Developed and maintained custom WooCommerce plugins to integrate secure payment solutions, manage recurring subscriptions

Shopware

Designed and implemented secure payment plugins for Shopware 5, 6, and Cloud platforms, enabling seamless transaction flows and subscription management. For the cloud environment, built and integrated APIs to support flexible client-specific features and ensure compatibility with evolving business needs. Actively supported clients by troubleshooting production issues and delivering tailored enhancements for reliable e-commerce operations.

Moodle

Developed custom plugins to integrate secure payment solutions for course enrollment
