- Canva

PROFILE

UI/UX Frontend Developer with 4+ years of experience in building responsive, user-friendly web applications. Skilled in HTML5, CSS3, JavaScript, Angular (14/16), Mendix, and SharePoint, with expertise in frameworks like Bootstrap, PrimeFlex, and Material CSS. Experienced in design tools including Photoshop, Illustrator, and InDesign, along with backend knowledge in C# MVC and MySQL. Adept at delivering seamless, visually appealing interfaces and app conversions for iOS and Android using Cordova.

WORK EXPERIENCE

RapidData Technologies 2023 - PRESENT
Rapid HRMS

Angular 16 | SCSS

- Centralized Employee Management** - The HRMS application is designed to act as a unified platform, consolidating employee directories and confidential organizational data into a single point of access. This eliminates the need for multiple tools and ensures secure and streamlined management of sensitive information. **Automation of HR Processes** - By automating routine HR operations such as employee data management, leave tracking, and organizational workflows, the application reduces manual effort, minimizes errors, and improves overall efficiency within the HR department.
- Enhanced Decision-Making for Management** - The system provides higher management with quick, secure access to critical employee and organizational insights. This enables informed decision-making, better workforce planning, and improved governance across all levels of the organization.

RapidData Technologies 2023 - PRESENT
Dubai Health Application

UI Developer | Mendix & SCSS | Responsive & Mobile-Native Design

- Designed and developed a bidding work ow system UI, enabling backend users to create bids, track multi-level approval status, and allow approved bids to be displayed to registered investors for participation before the closing date.
- Converted Figma wireframes into responsive, user-friendly interfaces, ensuring a seamless user experience across desktop and mobile platforms. Implemented intuitive UI components to support scoring-based winner selection, improving transparency and usability.
- Enabled bid reassignment work ows, generating new bid IDs while retaining historical data to ensure continuity in the bid lifecycle and maintain traceability

COURSE DONE

- Asp.Net
- C#
- SQL
- ADO.Net

RapidData Technologies

2023 - PRESENT

KPMG

UI Developer | Mendix & SCSS | Responsive & Mobile-Native Design

- Developed the front-end of a sales and inventory management application for the Kirloskar Pump Industry, ensuring scalability and robustness.
- Designed and implemented responsive UI screens using Mendix and SCSS, optimized for seamless performance across desktop and mobile platforms.
- Built mobile-native interfaces tailored for field sales and warehouse personnel, enabling real-time access to product availability, stock status, and order details.
- Collaborated with business analysts and stakeholders to translate requirements into Figma wireframes and functional UI components.
- Delivered intuitive navigation, consistent design patterns, and user-friendly workflows, driving increased usability and adoption across departments.

RapidData Technologies

2023 - PRESENT

LCGPA (Local Content & Govt Procurement Authority)

UI Developer | Mendix & SCSS | Responsive Web Application

- Contributed to the design and development of a government management platform for the Saudi Arabian government under LCGPA.
- Developed fully responsive UIs using Mendix and SCSS, optimized for desktops, tablets, and mobile devices.
- Implemented a bilingual interface with full Arabic (RTL) support, improving accessibility for local users.
- Converted Figma wireframes into production-ready components, ensuring consistent branding and design across English and Arabic versions.
- Ensured compliance with regional UX/UI guidelines and accessibility standards, delivering a seamless experience for both government officials and citizens.

Accenture International Pvt Ltd

2022 - 2023

Microsoft Corporation

Technologies: UI Development | AEM | RedTiger | Responsive Design

- Contributed to the design and development of Microsoft Security and Microsoft 365 websites, focusing on performance, responsiveness, and branding consistency.
- Utilized Adobe Experience Manager (AEM) and RedTiger CMS to build and manage dynamic, content-driven web pages aligned with Microsoft's global standards.
- Collaborated with design teams to transform Figma mockups into pixel-perfect, production-ready interfaces consistent with Microsoft's UX guidelines.
- Optimized pages for accessibility, performance, scalability, and localization, supporting multiple international markets. Ensured cross-browser compatibility and conducted regular testing to maintain high-quality production standards.

Accenture International Pvt Ltd

2022 - 2023

Microsoft Corporation

Technologies: UI Development | AEM | RedTiger | Responsive Design

- Designed and developed Microsoft Security and Microsoft 365 websites with a strong focus on performance, responsiveness, and branding consistency. Leveraged Adobe Experience Manager (AEM) and RedTiger
- CMS to build and manage dynamic, content-driven web pages aligned with Microsoft's global standards. Created responsive UI components to
- deliver seamless user experiences across devices and screen sizes.
- Partnered with design teams to translate Figma mockups into pixel-perfect web interfaces, adhering to Microsoft's UX guidelines. Optimized websites for accessibility, performance, and scalability,
- ensuring support for international markets and localization requirements.
- Conducted cross-browser compatibility checks and implemented rigorous testing to maintain production-quality standards.
