FULL STACK PHP / LARAVEL DEVELOPER

PROFESSIONAL SUMMARY

Full Stack Developer with **6+ years** of experience in designing, developing, and deploying scalable web applications using **PHP (Laravel, Core PHP), JavaScript, jQuery, Ajax, and MySQL**. Specialized in **CRM and HMS** systems, API integrations, and performance optimization. Proven record of improving system efficiency, reducing load times, and delivering solutions that enhance business processes in **Banking, Finance, and Education** domains.

KEY ACHIEVEMENTS

- Boosted application performance by **40%** through optimized SQL queries and Laravel caching.
- Integrated **REST, CURL, and SOAP APIs** to automate workflows and enhance interoperability across CRM and HMS modules.
- Designed and implemented **reporting dashboards** using Jasper Reports and Ajax, improving analytics visibility by **35%**.
- Delivered robust, scalable web platforms used by **100K+ users** for Government of Tamil Nadu (DPI).
- Improved bug resolution turnaround by **25%** through proactive production monitoring with App Insights.
- Mentored junior developers and conducted code reviews to ensure adherence to Laravel best practices.

TECHNICAL SKILLS

Languages & Frameworks: PHP (Laravel, Core PHP), JavaScript, jQuery, HTML5, CSS3, Ajax, Bootstrap

Database: MySQL, SQL Server

API & Tools: REST API, CURL, SOAP, Postman, SOAP UI

Version Control: Git, GitHub

Reporting & Analytics: Jasper Reports, App Insights

Other: MVC Architecture, Agile Methodologies, Debugging & Optimization

PROFESSIONAL EXPERIENCE

Software Engineer – Dr. Aravind IVF (Feb 2025 – Sep 2025)

Project: CRM & Hospital Management System (HMS)

- Developed full-stack modules in Laravel and MySQL improving workflow automation.
- Integrated **CURL APIs** for CRM data synchronization, reducing manual input by **30%**.
- Monitored production issues through App Insights ensuring **99.9% uptime**.

Tech Stack: PHP (Laravel), MySQL, Ajax, jQuery, Bootstrap, Postman, SOAP UI

Software Engineer – Learning Spiral Pvt. Ltd (Govt of Tamil Nadu DPI) (Sep 2022 – Sep 2023)

Project: Apply1 & Apply2 (TNDGE Portal)

- Designed and maintained Laravel-based application processing modules.
- Built **Jasper Report automation** improving reporting time by **50%**.
- Enhanced API security and optimized backend data exchange processes.

Tech Stack: PHP (Laravel), MySQL, Bootstrap, Postman, Ajax, jQuery

Software Engineer – Scope E-Knowledge Center (Mar 2019 – Aug 2021)

Project: Acquire

- Developed Laravel modules for large-scale client acquisition system.
- Collaborated with clients for feature requirements and iterative improvements.

- Optimized backend logic improving API response times by **35%**.

Tech Stack: PHP (Laravel), MySQL, SOAP UI, jQuery, Bootstrap

Software Engineer – Finmomenta Pvt. Ltd (Jul 2017 – Nov 2018)

Project: TechyLoans (Fintech Platform)

- Implemented Core PHP backend for loan management workflows.
- Integrated REST APIs for payment gateway and credit verification systems.
- Enhanced UI/UX responsiveness using Ajax and Bootstrap.

Tech Stack: Core PHP, MySQL, REST API, Ajax, Bootstrap

Software Developer – Innoart Technologies Pvt. Ltd (Apr 2016 – Jun 2017)

Project: Simplico RMS Software

- Built and deployed modules for retail management using Core PHP.
- Created CRUD-based dashboards with search and reporting features.
- Collaborated with QA team to improve deployment process efficiency.

Tech Stack: Core PHP, MySQL, jQuery, Ajax, Bootstrap

EDUCATION

Bachelor of Engineering (ECE) – Veltech High-Tech Engineering College, Chennai

Certification: Web Designing using PHP – NIELIT, Chennai (Jan 2016 – Mar 2016)

DECLARATION

I hereby declare that the above information is true to the best of my knowledge and belief.
