## Career Summary

Full Stack Web Developer with 3+ years of experience in designing, developing, and optimizing scalable web applications. Proficient in **Laravel, Node.js, PHP, JavaScript, ReactJs and RESTful APIs**. Skilled in system upgrades, performance tuning, and API integrations for fintech and CRM platforms.

## Professional Experience

### **Sr. Software Developer — CreditMantri Fintech Services Pvt Ltd (Jul 2025 – Present)**

- Designed and maintained scalable web applications using Laravel and Node.js.
- Improved performance and security, reducing load time by 75%.
- Mentored junior developers and optimized deployment workflows.
- Integrated RESTful APIs for efficient frontend–backend communication.

### **Software Developer — CreditMantri Fintech Services Pvt Ltd (Jul 2022 – Jun 2025)**

- Developed CRM and customer journey modules to improve service efficiency.
- Enhanced CIBIL and loan tracking features for better user experience.
- Upgraded Laravel and PHP environments ensuring seamless transitions.
- Built dashboards for data visualization and performance tracking.

## Technical Skills

**Frontend:** HTML5, CSS3, JavaScript, ReactJs, Bootstrap, jQuery, Ajax, Webpack, Sass

**Backend:** Laravel, Node.js, Core PHP, Express.js, RESTful APIs

**Database:** MySQL, PostgreSQL, MongoDB

**Tools:** Git, Postman, DBeaver, VSCode, Apache, Nginx, Linux

**Other:** API Integration, Debugging, Performance Optimization, Responsive Design

## Key Projects

- **Node.js & Frontend Upgrade**  
Upgraded Node.js from v10 to v22 and Bootstrap from v3 to v4, refactoring legacy code and removing deprecated dependencies. Ensured zero regressions through rigorous testing, improving performance, maintainability, and overall system stability.
- **CRM Dashboard & Collection Module**  
Developed multi-level queue systems and real-time dashboards for CRM data visualization. Revamped key modules (ARS, Unallocated Journey, Need Help) by identifying UI/UX bottlenecks, streamlining workflows, and integrating new features to enhance usability and operational efficiency.

- **Portfolio Scrub**  
Automated end-to-end SFTP data retrieval, extraction, and storage into PostgreSQL. Built robust workflows for large-scale data ingestion, transformation, and validation, ensuring secure and efficient processing of structured data through advanced automation.
- **Account Number Masking & ARS Settlement**  
Implemented secure data masking and encryption algorithms to protect sensitive financial information, ensuring compliance with data protection standards. Developed financial tracking tools integrated with banking APIs to enable real-time credit insights, expense tracking, and payment management.
- **WebEngage Integration**  
Integrated the WebEngage platform to automate personalized customer journeys, analytics, and campaign management. Leveraged event-driven automation and real-time notifications to improve engagement and retention while enforcing encryption and access control for data security.

## **Education**

- **BE - Electronics and Communication Engineering (6.7CGPA)**  
Aalim Muhammed Salegh College of Engineering, Anna University (Aug 2016 – Apr 2020) | Chennai.
