## Professional Summary

WordPress Developer with 3 years of experience in developing, customizing, and maintaining WordPress websites, themes, and plugins. Proficient in both frontend and back-end development, with expertise in building responsive, SEO optimized, and high-performance websites. Strong knowledge of WordPress architecture, PHP, MySQL, and JavaScript. Skilled in speed optimization techniques, troubleshooting, and delivering client-focused solutions while following WordPress coding standards and best practices.

## Work Experience

### Web Developer | Senior WordPress developer

Fueint Technologies | 2022 - Present

- Developed custom WordPress themes and plugins tailored to client requirements.
- Customized existing themes and plugins to enhance functionality and meet project goals.
- Designed and implemented custom Advanced Custom Fields (ACF)/Gutenberg blocks for flexible content management.
- Configured and customized template functionality using custom post types and taxonomies.
- Conducted quality assurance testing to identify and resolve pre-deployment issues.
- Optimized website performance using speed optimization techniques, improving Core Web Vitals metrics (e.g., reduced LCP by 30% and CLS by 0.05).
- Provided ongoing support, maintenance, and troubleshooting for WordPress websites.
- Collaborated with designers and developers to ensure seamless front-end and back-end integration.
- Improved organic visibility by resolving SEO and indexing issues in Google Search Console, boosting traffic by 15% on average.
- Maintained and applied security updates for WordPress, Drupal, and Craft CMS projects.

### Key Achievements:

- Successfully delivered multiple WordPress websites with custom themes and plugins.
- Enhanced user experience through responsive designs and speed improvements.
- Implemented scalable solutions for content management using custom coding, hooks, and filters.
