PROFESSIONAL EXPERIENCE

Web Developer — Egrove Systems

18 Apr 2025 – Present

Developing and maintaining e-commerce websites for U.S. clients, customizing WordPress to deliver high-performance, conversion-focused solutions.

PHP Developer — Energy Alternatives India (EAI)

Oct 2023 – 11 Mar 2024

Managed 15+ domains and led end-to-end development of climate-focused platforms (Clicar, Bring, EAI Events) using PHP CodeIgniter, delivering dynamic websites with intuitive UIs, efficient backends, and robust databases.

Frontend / WordPress Developer

Enhanced UI/UX for IIT Madras ClimaFix Summit platform with responsive design and cross-browser compatibility; integrated Razorpay payment API; built reusable React.js/Tailwind CSS components; developed and deployed 7+ custom WordPress sites with optimized themes, plugins, and performance.

Frontend Developer Intern — Energy Alternatives India (EAI)

16 Aug 2023 – Oct 2023

Supported responsive web development with HTML, CSS, Bootstrap and improved performance and cross-browser compatibility.

EDUCATION

SSWC, PERIYAR UNIVERSITY

Bachelor of Computer Science

CGPA : 8.5

2020 - 2023

PROJECTS

MovieMingle & Weather App

Live Demo (MovieMingle): kowsalyaperiyasamy.github.io/MovieMingle

Live Demo (Weather App): kowsalyaperiyasamy.github.io/weather/

Tech Stack: React.js, Vite, JavaScript (ES6+), TMDB API, React Router, Live Weather API

- MovieMingle**, a fast React.js movie discovery app with TMDB API integration, real-time search, dynamic movie data, React Router navigation, hooks-based state management, and optimized Vite deployment
- Weather App**, a location-aware platform showing real-time conditions (temperature, humidity, wind, pressure) plus past & next 5-day weather forecasts via live API data, all wrapped in a clean, intuitive UI.

ACHIEVEMENTS

- Best Employee award in May 2024 for outstanding performance and active engagement.
- One Day CEO recognition in February for effective management and leadership skills.
