SUMMARY

Motivated Software Developer with **3+ years of experience** in backend development, web applications, API integration, e-commerce product management, and automation workflows. Skilled in PHP, CodeIgniter, Angular, Laravel, and Node.js, with a strong ability to optimize operational processes, enhance system efficiency, and deliver scalable, high-quality solutions.

EXPERIENCE

Software Developer – Notion Press (Jan 2024 – Present)

- Developing and maintaining internal web applications using CodeIgniter and Angular.
- Managing RESTful API development, testing, debugging, and documentation.
- Handling Amazon and Flipkart product listings, catalog updates, and SEO-driven optimization.
- Managing complete order-processing operations including tracking, coordination, and validation.
- Integrating and improving printing factory automation systems for order scheduling and production tracking.
- Supporting automation tasks using Node.js for microservices and backend scripting.
- Enhancing internal dashboards for operations, customer service, and printing departments.

PHP Developer – Logas Technology (Feb 2023 – Dec 2023)

- Developed and customized web applications using Laravel and OpenCart.
- Contributed to Finance Portal modules including invoice generation, payment tracking, and automation.
- Implemented and enhanced Order Management System (OMS) workflow modules.
- Developed CRM features including lead management, activity tracking, and customer follow-up automation.
- Integrated APIs, optimized SQL queries, and improved backend logic for CRM, OMS, and Finance systems.
- Worked closely with cross-functional teams for requirement gathering and system improvements.
