Education

Bachelor of Engineering in Mechanical Engineering

2018

- Relevant Skills: Front-End Development, Responsive Design, UI/UX Basics (Actively transitioned into Front-End Development, building web projects and upskilling through online learning)

Projects

E-commerce Web App (React + Redux + React Router)

Built a responsive e-commerce website with product categories and cart management.

- Built a responsive e-commerce website featuring product categories: Men's Clothing, Women's Clothing, Jewelry, and Electronics.
- Integrated Redux for global cart state management and React Router for dynamic product and category routing.
- Users can add items to the cart, view cart summary, and navigate seamlessly across sections.

Instagram Clone (React + Bootstrap)

Developed a responsive Instagram-style web app with dynamic user interactions.

- Developed a responsive Instagram-style web app allowing users to change profile details, view stories, and follow/unfollow other users.
- Focused on reusable UI components and clean state management for dynamic user interactions.

Portfolio Website (React)

Created a fully responsive personal portfolio showcasing front-end projects and skills.

- Created a fully responsive personal portfolio to showcase front-end projects and technical skills.
- Implemented smooth scroll navigation, project previews, and interactive sections using modern CSS and React hooks.
- Deployed online as a professional profile for job applications.

Activities & Training

Self-paced learning and project development in React and modern web tools

- Self-paced learning and project development in React and modern web tools
- Active contributor to UI/UX practice projects
- Regularly participate in online developer communities and forums
