PROFESSIONAL SUMMARY:

Dedicated and detail-oriented Full Stack PHP Developer with over 8 years of experience in designing, developing, and maintaining scalable web applications. Proficient in PHP, Laravel, CodeIgniter, and MySQL with strong expertise in front-end and back-end development. Hands-on experience in RESTful APIs, payment gateway integrations, Docker, and CMS customization. Adept at optimizing database performance, ensuring responsive UIs, and delivering user-centric software solutions across domains like e-commerce, education, healthcare, and HRM..

TECHNICAL SKILLS :

- 1. Front-End:** HTML, CSS3, Bootstrap, Tailwind CSS, JavaScript, jQuery, TypeScript, React.js, Express.js, Angular.js, Material-UI.
- 2. Back-End:** PHP, Core PHP, Node.js.
- 3. Database:** MySQL, SQL, MongoDB, PostgreSQL.
- 4. Frameworks & CMS:** CodeIgniter, Laravel, WordPress (Theme & Plugin Customization), OpenCart.
- 5. Servers:** XAMPP, Docker, GoDaddy.
- 6. API Development:** RESTful APIs, Payment Gateway Integration (BillDesk, Stripe, Razorpay).
- 7. Tools & Platforms:** Git, Photoshop (Basic).

PROFESSIONAL EXPERIENCE

Full Stack Developer

Anand Techverce LLP | July 2023 – PRESENT

1. Developed and maintained Employee Management System (EMS), automating HR processes.
2. Enhanced Library Management System (LMS) for efficient book tracking and transactions.
3. Optimized database performance, reducing query execution time by 30%.
4. Spearheaded the development of Library Management System (LMS).
5. Automated ISBN generation & barcode scanning for improved inventory management. Implemented secure payment processing systems and customer order tracking

Full Stack Developer

Skill Lync LLP | Oct 2022 – May 2023

1. Built and enhanced Student CRM Portal, streamlining student enrollment and engagement.
2. Led front-end optimizations using Bootstrap and JavaScript, improving UI/UX and responsiveness.
3. Optimized database performance, reducing query execution time by 30%.

Senior Software Developer

Coonz Live Air | Sep 2018 – Aug 2022

1. Spearheaded the development of Institute Management System (IMS) and E-commerce platforms.

Junior Software Developer

Foxappz | May 2017 – Aug 2018

1. Developed web applications using Core PHP, MySQL
2. Collaborated with designers to implement modern UI/UX elements

PROJECTS:

1. Non Profit Organization

Tech Stack: React , Node js, Express js, MongoDB , JavaScript, Bootstrap

Developed a full-stack web application for a **Non-Profit Organization** to manage **donations and fund distribution** between donors and receivers. The system ensures **transparent tracking of donated amounts**, secure user authentication, and efficient allocation of funds to beneficiaries.

Key Features

1. Donor registration & login
2. Secure donation payments
3. Receiver request & approval system
4. Real-time donation amount tracking
5. Admin dashboard for fund monitoring
6. Transaction history & reports

Frontend – React.js

1. **Built responsive UI using** React functional components
2. Used **Hooks** (useState, useEffect, useContext)
3. Implemented role-based UI (Admin / Donor / Receiver)
4. Form validation for donation and request forms
5. Integrated APIs using **Axios**
6. State management using **Context API**
7. Protected routes using authentication tokens

Backend – Node.js & Express

1. **Designed RESTful APIs using** Express.js
2. Implemented secure authentication using **JWT**
3. Role-based access control (Admin, Donor, Receiver)
4. Donation processing and fund allocation logic
5. Validation and error handling
6. Middleware for authorization & security

Database – MongoDB

1. **Stored donor, receiver, and transaction details**
2. Maintained donation history & fund balance
3. Optimized queries for reports and dashboards

2. President Education - <https://presidenteducation.com/>

Tech Stack: Wordpress , Elementor, WPForms , PHP

President Education is an international education platform that provides curated global study and edutrip programs for students. The website showcases academic immersion experiences in collaboration with leading international universities and industry partners. Built on WordPress, the platform features program listings, student guidance, and application support. It is designed for easy content management, responsive performance, and a seamless user experience

2

3. NDWC Health - <https://www.ndwc.health/>

Tech Stack: Wordpress , Elementor, WPForms , PHP

NDWC Health is a healthcare website developed to represent a women's medical practice offering obstetrics and gynecology services. The site provides clear information on treatments, doctors, and patient resources. Built using WordPress, it supports easy content management and responsive design across devices. The platform focuses on accessibility, usability, and patient engagement.

4. River Valley Escapes - <https://rivervalleyescapes.nz/>

Tech Stack : Wordpress, Elementor, WPForms, PHP

River Valley Escapes is a hospitality website designed to promote a riverside accommodation retreat in New Zealand. The site showcases stay options, amenities, and local attractions with rich visuals. Built using WordPress, it allows easy content updates and responsive performance across devices. The platform focuses on user-friendly navigation and booking-oriented design.

5. Chettinad Vidyashram - <https://chettinadvidyashram.org/>

Tech Stack : Wordpress, Elementor, WPForms, PHP

Chettinad Vidyashram is a CBSE school website built using **WordPress** to showcase academics, admissions, events, and campus life.

The site is designed with **Elementor** for responsive and user-friendly layouts.

Plugins are used for contact forms, galleries, announcements, and performance optimization.

It enables easy content updates and smooth navigation for students, parents, and visitors..

6. Employee Management System (EMS) - <https://ems.anandtechverce.com/>

Tech Stack: PHP, MySQL, XAMPP, JavaScript, Bootstrap

1. Designed to **compile, integrate, and manage** comprehensive employee data efficiently.
2. Handles **salary, attendance, leave management, payroll, department structure, designations, announcements, training & development, and pay slips**.
3. **Automates payroll processing** based on employee leave, attendance records, and CTC calculations.
4. **Live Biometric Attendance – based employee check in and checkout live working and break hours count and live timer will show for both working and break hours**.
5. Designed to **compile, integrate, and manage** comprehensive employee data efficiently.
6. Handles **salary, attendance, leave management, payroll, department structure, designations, announcements, training & development, and pay slips**.
7. **Automates payroll processing** based on employee leave, attendance records, and CTC calculations.
8. **Generates pay slips automatically**, ensuring accuracy and efficiency.

7. Library Management System (LMS)

Tech Stack: PHP, MySQL, Bootstrap

1. Designed to **automate and streamline** library operations, including **book issuance, returns, and inventory management**.
2. **Admin module** enables easy tracking and updating of student and staff details, book records, and availability status.
3. Features **automated ISBN generation and barcode creation** for seamless book identification and tracking.
4. Barcode scanner integration enhances book search and updating efficiency.
5. Admin - The Admin module store the details of students and staff, the details of books, update the status of book, adds newly purchased book details, issues the book, collect the book, purchased BOOK ISBN number is not available means auto

3

8. Ecommerce Platforms (Family Garden, Plant Best)

Tech Stack: PHP, MySQL, Codeigniter

Developed robust inventory management systems with payment gateway integration.

1. **Chennai top10** –Blog Site - <https://www.chennaitop10.com/>
2. **Plant best** – product selling and blog site - <https://www.plantbest.com/>
3. **Family garden** - online shopping site - <https://www.familygarden.in/>
 - Maintains product , quantity ,category, purchase, waste product , delivery areas,expire product, delivery time slot ,postal code.
 - **Reports** - Customer Activity Report, Customer Orders Report, shipping reports,return order report , sale report , product purchased report
 - Website product click and moved cart place maintain the 20 mins delivery onlydelivery 20 min available with in 5 km customer only
 - . Remain customer will choose time slot for delivery orders
 - Purchased items reorder option for example, existing customers reorder their oldorder items
 - Wallet option in family garden app and website

9. **Medical Inventory - Medall** - <https://uvaasmedall.com/invoice/login.php>

Tech Stack: PHP, MySQL, Codeigniter

This project is 3 type of login

1. India & PNG (Papua new guinea)
2. Maintains salary, Category, Supplier, Purchase Order, Invoice, Customer, Goods in Transit, Tracking
3. All Purchase order medicine rate, qty , gst , calculation and print that purchase order
4. Accounts (Other Expense , Petty Cash)

10. **Payment.asis.education-** <https://payment.asis.education/>

Tech Stack: PHP, MySQL, Codeigniter

This project based on only school student fees payment using bill desk paymentmethod

11. **Free Thinker** - [https:// freethinkersagency.com/](https://freethinkersagency.com/)

Tech Stack: PHP, MySQL, Codeigniter

This project based on only blog site

12. **Anandtechverce.com – Company website**

Tech Stack: PHP, MySQL, Codeigniter

13. **Institute Management System -**

Tech Stack: PHP, MySQL, XAMPP, JavaScript, Bootstrap

1. This template is fully based on Codeigniter . Three types of dashboard Admin , Tyutor, Student.
2. Admin can add student ,class , Batch, Videos, Assignment, Site content , Online class, Student Exam, Notifications, Wallet , Full course.

CORE PHP :

1. Mars constructions (Admin)
2. CCL-Corporate cultural league
3. Emaraxy
4. Foxapp.com(<https://foxappz.com/>)
5. Laundroid website
6. Laundroid(Admin)
7. Indian Bank Jewelry Association (Admin)
8. Dabedacor (Admin)
9. Emaraxy
10. www.sewaksolutionlimited.com
11. Donors.world

12. www.pilesure.in
13. www.ayushmanpharma.com
14. Brightland School
15. Moszad (<https://moszad.yetloapps.com/partner/login.php>)
16. Green ocean herbal (greenoceanherbal.com)
17. Cortex
18. Lss car care

COURSE COMPLETION :

1. **EMBEDED SYSTEM"- ARDUINO** Course In Oneyes **2016.**
2. Completed **Web development Training** in **HP SOFTWARE UNIVERSITY** at Ambattur

ACADEMIC PROFILE :

1. Bachelor of Eelectronic Communication Engineering 2017 - **72%** - **SKR Engineering College.**
2. Higher secondary school (HSS) 2013 - **71.1%** - **Manilal M.Mehta Girls High Secondary School.**
3. Secondary School Leaving Certificate (SSLC) 2011 - **75%** - **Raghupathy Raja Vidyalaya Matriculation School.**

PERSONAL PROFILE:

Name	: Haripriya . P
Father's Name	: Paridass .S
Date of Birth	: 24.04.1996.
Gender	: Female.
Languages Known	: English, Tamil.
Address	: 3A , 9th cross street, Devikarumari amman Nagar, Velachery, Chennai – 600042.

DECLARATION :

I hereby declare that all the information given above is true to the best of my knowledge and belief.

Date :
Place : Chennai

Thanks & Regards,
