PROFESSIONAL SUMMARY

Results-driven Backend Developer with proven expertise in full-stack web and mobile application development. 1+ year of professional experience building scalable e-commerce solutions and service booking platforms using Laravel and modern tech stacks. Demonstrated proficiency in API development, database optimization, and cross-platform collaboration. Seeking to leverage technical expertise and problem-solving abilities in a growth-oriented development role.

TECHNICAL SKILLS

Programming Languages: PHP, JAVA

Backend Frameworks & Tools: Laravel, RESTful API Development

Database Management: MySQL, Database Optimization, Query Performance

Frontend Technologies: Flutter (Mobile), Responsive Web Development

Development Environment: Visual Studio Code, Laravel Valet, XAMPP, MySQL Workbench, Git

Core Competencies: Full-Stack Development, API Integration, Mobile App Development, Code Quality Assurance, Performance Optimization, Cross-Platform Collaboration

PROFESSIONAL EXPERIENCE

Backend Developer | Weblabs Technologies, Hyderabad

July 2024 – Present

Desibaazar: Hyperlocal Indian Grocery Delivery Platform

E-commerce | desiBaazar.in

Tech Stack: Laravel (PHP), MySQL, Flutter, RESTful APIs, Payment Gateway Integration

Project Overview: Engineered a production-grade hyperlocal e-commerce platform serving as a comprehensive solution for online grocery delivery, featuring dedicated interfaces for customers, store managers, admins, and delivery personnel.

Responsibilities:

- Designed and developed the core e-commerce system using PHP and Laravel, delivering a seamless shopping experience
 - Developed responsive administrative web panels for real-time store operations and user management
 - Implemented seamless mobile navigation and performance optimization across Android devices using Flutter
 - Collaborated with frontend and backend teams to ensure proper API integration and cohesive project flow
 - Conducted code reviews, debugging, and unit testing to uphold high code quality standards
 - Implemented UI/UX enhancements across user-facing modules to improve usability and engagement
 - Integrated APIs to dynamically fetch and display product listings within mobile and web applications
-

Backend Developer | Weblabs Technologies, Hyderabad

July 2024 – Present

FixUpService: On-Demand Service Booking Platform

Tech Stack: Laravel (PHP), MySQL, RESTful APIs

Project Overview: On-demand service booking solution connecting service professionals with customers for various home and personal services.

Responsibilities:

- Developed and integrated serviceman self-registration API using Laravel, enabling independent account creation and profile setup
- Contributed to backend validation and user access control for registration and service workflows

App Publishing & Deployment

- Published and maintained production applications on Google Play Store and Apple App Store
- Managed app release cycles adhering to platform guidelines and app store policies
- Implemented post-launch monitoring, performance tuning, and rapid bug fixes

EDUCATION

Bachelor of Engineering in Information Technology

GMR Institute of Technology, Rajam | 2018–2022

CGPA: 7.3/10

Senior Secondary (MPC)

Narayana Junior College | 2016–2018

Percentage: 87%

Secondary Education (CBSE)

S.M.T. Godavari Devi Saraf High School | 2015–2016

CGPA: 7.8/10
