About Me

Senior Backend / API Engineer with 9+ years of experience designing, developing, and maintaining scalable backend systems and RESTful APIs for high-traffic web, mobile, and kiosk platforms. Strong expertise in PHP (Laravel, CodeIgniter), Node.js, MySQL, and system integrations. Proven ability to build production-ready APIs, optimize performance, and collaborate with cross-functional teams in fast-paced product environments. Experience with modular backend architecture, API authentication, and performance optimization.

Education

B.Tech – Information Technology

Sethu Institute of Technology

2009 - 2013

Skills
