SUMMARY

Enthusiastic Python Full Stack Developer fresher with skills in building robust web applications from front to back. Equipped with knowledge in both client-side and server-side development, with a focus on creating seamless user experiences. Eager to apply my skills and learn new technologies in a dynamic team environment. Possesses beginner-level knowledge in PHP and Laravel, aiming to enhance my expertise in these areas.

SKILLS

Python . WordPress . JavaScript . C. Django . Flask . HTML . CSS . Bootstrap . Jquery . React JS . MySQL . MongoDB . Firebase . PostgreSQL . Git . Github. Pycharm . Eclipse . Figma . Canava .VS Code .

EXPERIENCE

Python Full Stack Intern

14-11-2023 - 14-05-2024

SMECLabs Kochi,India, Kaloor,Eranakulam

- Developed dynamic web applications using Python-based frameworks like Django and Flask.
- Utilized relational databases such as MySQL and PostgreSQL to store and manage application data.
- Implemented front-end features using HTML, CSS, JavaScript and ReactJS to enhance user experience

EDUCATION

- Full Stack Python Developer
SMEC Automation (P) Ltd
Nov 2023 - May 2025
Kaloor,Eranakulam,Kerala
- Bachelor of Arts (BA) in English Language and Literature
University of Calicut
Jul 2017 - Apr 2020
Kozhikode, Kerala
- Diploma In Data Entry
G-Tech Computer Education
Aug 2022 - Aug 2022
Perambra , Kozhikode ,Kerala
- Electronics Communication Technology
Vocation Higher Secondary Examination
Jun 2015 - Mar 2017
G.V.H.S.S Meppayur, Kozhikode ,Kerala

PROJECTS

Student-Teacher Management System

Description:

Developed a comprehensive Student-Teacher Management System using React.js for the frontend and Django for the backend. The system allows users to manage students and teachers, including creating, reading, updating, and deleting records.

Technologies Used:

- Frontend:

React.js : For building the user interface
Axios : For making HTTP requests to the backend
React Router : For client-side routing
Bootstrap : For responsive design and styling

- Backend :

Django : As the main web framework
Django REST Framework (DRF) : For building the API endpoints
MySQL : As the database for storing student and teacher information
CORS Headers : For handling Cross-Origin Resource Sharing
Python: For writing backend logic

- Key Features :

Student Management : Add, update, view, and delete student records.
Teacher Management : Add, update, view, and delete teacher records.
API Endpoints : Implemented RESTful API endpoints for all CRUD operations.
CORS Handling : Configured CORS to allow interaction between the React frontend and Django backend
Responsive Design : Ensured the application is responsive and works well on various devices

Website Project: Aesthetic Interiors

Description:

Developed a fully functional and professional website for an interior design company, showcasing its services and portfolio effectively. The project was completed within 5 days, utilizing modern tools and technologies to ensure rapid and efficient development. The website was initially created locally using XAMPP and deployed online for demonstration purposes as Aesthetic Interiors

Technologies Used:

WordPress

Plugins:

Elementor & Elementor Header & Footer Builder : For advanced design and layout customization.
Contact Form 7 : For creating and managing the contact form.
Simply Static : For converting the dynamic website into a static version for optimal performance and security.

Full-Featured E-Commerce Platform (WordPress/WooCommerce)

Description:

Developed and deployed a comprehensive, end-to-end e-commerce website using WordPress. The platform features a fully functional online store with a secure customer journey from product discovery to checkout. Implemented a modern, responsive design focused on user experience and conversion rate optimization.

Technologies & Plugins Used:

Core Platform : WordPress, WooCommerce
Page Builder & Design : Elementor, Classic Widgets
UI/UX Components & Add-ons : ElementsKit Lite, Jeg Elementor Kit
Forms & Interaction : MetForm
Payment Processing : WooCommerce PayPal Payments
User Features : WooCommerce Wishlist
Backup & Migration : All-in-One WP Migration and Backup

- Key Responsibilities & Achievements:

Engineered the entire website architecture using the Elementor page builder for front-end design and customization.

Integrated and configured WooCommerce as the core e-commerce engine to manage products, inventory, and orders.

Implemented multiple secure payment gateways, including PayPal and standard card processing, ensuring PCI compliance.

Enhanced user engagement and retention by integrating features like user registration profiles, a wishlist system, and advanced product filtering.

Utilized form builder plugins to create custom contact and checkout forms, improving lead capture and customer communication.

Ensured site reliability and data security by implementing a robust backup and migration strategy.

OnTouch - Online Local Services (In Progress)

Description:

The platform allows users to book services, schedule appointments, and view detailed information about local service providers. Service providers can also register and showcase their skills, which are verified by the admin before being visible to the public

Technologies Used:

Backend : Django, MySQL, Python

Frontend : HTML5, CSS3, JavaScript

Key Features :

Service Booking : Users can book various local services like plumbing, electrical work, taxi, and more.

Scheduling : Users can schedule appointments by selecting date and time.

Service Provider Registration : Local service providers can register and add their skills to the platform

Admin Verification : Admin verifies service provider requests before they are made public. User Reviews

and Ratings : Users can review and rate the services they receive.

Service Listings : Detailed listings of available services and providers.

STRENGTHS

Effective Communication:

Proficient in conveying complex technical concepts in a clear and understandable manner to team members and stakeholders, fostering seamless collaboration and alignment across all project stages

Motivation and Positive Thinking

Maintains an optimistic outlook even in challenging situations, leveraging enthusiasm and determination to inspire team members and drive project success

Hard Work and Dedication

Demonstrates relentless commitment to achieving goals and exceeding expectations, consistently putting in the effort required to deliver exceptional results and contribute significantly to project advancement.
