SUMMARY

- Full-Stack Developer with 5 years of experience in web development, specializing in PHP , Laravel, and MySQL with RDBMs and maintaining the integration solutions. Proficient in both backend development (PHP, MySQL) and frontend technologies (JavaScript, HTML, jQuery, Bootstrap). Experienced in building custom web applications across various industries, including CMS and large-scale enterprise applications. Strong in API development, integration, and applying Object-Oriented Programming (OOP) principles. Skilled in the full software development lifecycle (SDLC), including testing, debugging, and delivering scalable solutions. Focused on staying current with emerging technologies and committed to continuous learning and professional growth.

TECHNICAL SKILLS

- PROGRAMMING : PHP(8), Laravel(9,10,11), JavaScript, jQuery, React JS, HTML5, CSS, Bootstrap.
- DATABASE MANAGEMENT : MySQL, SQL, PhpMyAdmin, MySQL Workbench, Triggers, Stored Procedures.
- FRAMEWORKS and TOOLS : Laravel, Docker, Composer, Apache, XAMPP , Redis, AWS, ORM concepts.
- VERSION CONTROL : GIT, GitHub, GitLab, Bitbucket.
- PLATFORM INTEGRATION : Quickbooks (QBO/QBD), Xero, Freshbooks, Mastercard.
- TECHNOLOGIES : SOLID Principles, OOP, MVC Architecture, RESTful API Development and Integration, CI/CD Pipelines, Agile/Scrum Methodology, Payment Integration, Server side Cron Jobs..
- OTHERS: Linux and Windows CLI, AJAX, JSON, Webhooks, Application Security (OWASP).

SKILLS

- Write clean, well-designed PHP code.
- Build efficient, testable, and reusable PHP modules.
- Design and manage databases (commonly MySQL or PostgreSQL).
- Write SQL queries and optimize database performance.
- Work with front-end developers to integrate user-facing elements.
- Ensure seamless integration between front-end and back-end.
- Create and consume RESTful or SOAP APIs
- Knowledge of Agile methodologies.
- Integrate third-party services (e.g., payment gateways, QBO, Xero, and accounting platforms)
- Manage Multiple tasks, unit testing, R&D, and TDD.
- Team Collaboration and Client Communication.

ACHIEVEMENTS

- Integration - Quickbooks (Online & Desktop), Xero, Freshbooks, Mastercard) | Payment | OAuth | Real-time sync | Secure API access Applications Integrated.

EDUCATION

MIET Engineering College, Trichy — *Bachelor of Computer Science Engineering (CSE)*

2015 - 2019

- Affiliated with Anna University | CGPA: 6.83

PROFESSIONAL EXPERIENCE

IGS Automation & AI Private Limited – PHP (Laravel) Developer

2023 - Present

- Developed and maintained Banking transaction management software using Agile methodology, enhancing development efficiency by 20%. Focused on system scalability and long-term operational efficiency.
- Designed and managed transaction data systems for 100,000+ client records, achieving 100% data accuracy and ensuring compliance with financial industry standards.
- Integrated OCR (Optical Character Recognition) technology into transaction workflows, reducing manual data entry by 30% and improving data processing speed.
- Delivered 10+ product releases covering the entire Software Development Life Cycle (SDLC), with a strong focus on scalability, reliability, and performance optimization. Our application performance, achieving a 56% increase in efficiency and reducing server load by 25% through optimized code and system tuning.

Projects: Integra Balance (IB) and IAMS

- Developed a scalable platform managing 5M+ transaction records, integrating seamlessly with CRMs like Quickbooks Online, QuickBooks Desktop, Xero, Freshbooks, Mastercard.
- Reduced transaction errors by 15%, processing efficiency by 20%, and 30% increase in transaction.
- Built and deployed a customer transaction record management tool using PHP and Java.
- Integrated OCR technology achieving 98% data import accuracy, reducing manual entries efforts by 30% and improving system performance for large-scale data operations.

Sparkout Tech Solutions – PHP (Laravel) Developer

2020 - 2023

- Created 5+ user registration, CRM, property booking, and parking applications using PHP Laravel.
- Improved code quality, achieving a 95% reduction in bugs and an 85% improvement in page load speed.
- Managed and maintained databases with 100K+ records, ensuring 99.9% uptime and +reliability.

Projects:

- Fabvenues : Online marketplace with Razorpay integration and eco-friendly options, increasing booking efficiency by 60%.
- RentalSlew : Property rental tool with Stripe/PayPal integration, enhancing customer satisfaction by 40%.
- Parkk : Platform for connecting travelers and property owners for parking space rentals, enabling time-based bookings.
- Eatzilla : Food delivery platform similar to Swiggy/Zomato, handling 1,000+ daily orders and reducing server downtime by 15%.
- Elite-Frames : E-commerce platform for frames, processing 500+ transaction success rates by 90%.

DECLARATION

- I hereby declare that the information furnished above is true to the best of my knowledge and belief.
