## PROJECTS

### **BWSSB Call Center, Server Maintenance**

- **System Maintenance and Monitoring:** I performed regular system checks and updates to ensure the server operated smoothly and efficiently. This involved monitoring server performance, managing system resources, and addressing any issues that arose to minimize downtime and disruptions.
- **Troubleshooting and Support:** I acted as the primary point of contact for resolving technical issues and providing support to call center staff. This included diagnosing problems, implementing solutions, and ensuring that any technical glitches were swiftly resolved to maintain optimal system performance and user satisfaction.
- **Documentation and Reporting:** I maintained detailed documentation of server configurations, maintenance activities, and troubleshooting steps. Additionally, you provided regular reports on system performance, issues resolved, and any changes made, ensuring transparency and aiding in future planning and improvements.

### **Quicxly.com, It is an HRMS Website along with Payroll Functionality**

- Led a team of five members in the development and implementation of an integrated HRMS and Payroll System for Quicxly.com, a website offering comprehensive HR management solutions.
- Collaborated closely with stakeholders to gather requirements and ensure the seamless integration of HR and payroll processes, resulting in streamlined employee management, attendance tracking, leave management, performance evaluation, and payroll processing.
- Played a key role in the system's design and development, focusing on modules such as employee database management, attendance tracking, leave management, performance evaluation, and payroll processing, ensuring functionality and user-friendly interfaces.

- Conducted rigorous testing and resolved any issues or bugs to ensure the system's smooth integration and functionality, resulting in enhanced accuracy, timely payroll processing, and improved overall efficiency.
- Provided user training sessions and ongoing support, facilitating the successful adoption of the integrated HRMS and Payroll System, leading to increased employee satisfaction and better management of HR-related functions.

#### **exports.ifutureglobistic.com & ruca.store**

- Developed a comprehensive website, exports.ifutureglobistic.com and ruca.store, showcasing detailed product information and specifications of a wide range of spices. Utilized a fast-paced approach to efficiently deliver a fully functional platform that meets all requirements.
- Created an informative online platform that serves as a one-stop destination for spice enthusiasts, offering a wealth of product details. Employed a meticulous approach to ensure accuracy and relevance of information, providing users with a seamless browsing experience.
- Leveraged strong project management skills to successfully complete the website within a tight timeline. Demonstrated proficiency in meeting client specifications and delivering high-quality results. The website serves as a valuable resource for spice-related knowledge, without facilitating e-commerce transactions.

#### **cms.bwssb.gov.in, Complaint Management and Resolution Website**

- Developed a robust web application for government entities to effectively manage and resolve complaints, optimizing the complaint handling process and fostering improved communication between agencies, users, and external sources.
- Implemented user registration, authentication, and complaint submission modules, ensuring secure access and providing citizens with a user-friendly interface to submit complaints along with supporting documentation.
- Integrated APIs to seamlessly share complaints between the web application and external sources, enabling government agencies to gather complaints from multiple channels, ensuring comprehensive tracking and resolution.
- Designed and implemented a comprehensive complaint management system, allowing government officials to assign, prioritize, and track complaints through various stages of resolution, improving efficiency and timely resolution.
- Developed reporting features that provided real-time analytics and insights, empowering government agencies with valuable data for efficient decision-making, ultimately fostering transparency and trust in the complaint resolution process.

#### **bwssb.gov.in**

- Maintained and supported a critical government official website designed for complaint management and resolution, ensuring its seamless functionality and uninterrupted availability.
- Collaborated closely with government agencies to address issues, implement updates, and ensure efficient complaint handling processes, thus contributing to improved citizen satisfaction and trust.
- Conducted regular maintenance tasks, monitored website performance, and implemented necessary enhancements to meet evolving requirements and optimize user experience.

#### **karthikeysolutions.com**

- Developed and deployed my first full-stack website with dynamic pages, incorporating both frontend and backend components, along with limited access logins for enhanced security and user-specific functionalities.
- Demonstrated proficiency in web development by successfully designing and implementing a comprehensive website, showcasing skills in frontend design, backend development, and user authentication

### **hervikhealthcare.com**

- Created a detailed static website for a company, featuring multiple pages and providing extensive information about the organization, effectively highlighting its products, services, and achievements.
- Utilized web development skills to design and develop a comprehensive website, showcasing the company's information in an organized and visually appealing manner, contributing to enhanced online presence and brand representation.

### **sdhrcollege.in**

- Developed a dynamic college website highlighting achievements and growth, delivering a visually appealing and informative platform within a tight timeline.
- Demonstrated ability to efficiently create and deploy a college website showcasing accomplishments, contributing to enhanced online presence and effective communication with stakeholders.

### **DECLARATION**

I hereby declare that the information provided in this resume is true, accurate, and complete to the best of my knowledge. I understand that any misrepresentation or omission may result in disqualification from consideration for employment. I authorize the verification of all the details mentioned in this resume.
