EXECUTIVE SUMMARY

Frontend Developer with hands-on experience in building responsive and dynamic web applications using Angular and React.js. Skilled in HTML, CSS, Bootstrap, PrimeNG, and Material UI. Strong focus on clean UI design, team collaboration, and delivering high-quality user experiences. Adaptable and reliable in meeting evolving project needs. Committed to writing clean, maintainable code and continuously improving frontend performance.

WORK EXPERIENCE

Tarkiz Infotech Pvt Ltd - Chennai

JULY 2024 - CURRENT

Frontend Development: Developed responsive, user-friendly web applications using Angular and React.js for seamless cross-platform performance. Created clean and adaptive UI designs using Bootstrap, PrimeNG, and Material UI. Integrated RESTful APIs to display dynamic data and enhance user interactivity. Focused on performance optimization, cross-browser compatibility, and maintainable code practices.

Projects

Human Resource Management System (HRMS)

- A web-based HRMS platform designed to streamline HR operations for Admins, HRs, Managers, and Employees. The system includes attendance management, leave tracking, and employee dashboards.

Technologies Used: Angular, RxJS, Bootstrap 5, PrimeNG, Angular Material, TypeScript

- Role-based dashboards and secure component access.
- Used PrimeNG TreeTable and DataTable for tabular employee data.
- Leave management module with approval workflow and status updates.
- Responsive design using Angular Material and Bootstrap 5.

Health Care Website

- A web-based healthcare platform for patient appointment booking, doctor preference changes, and schedule management with secure, role-based access.

Technologies Used: Angular, RxJS, PrimeNG 20, Bootstrap 5, Angular Material, Swiper, TypeScript

E-Commerce Website

- An online flowershopping platform enabling users to browse, select, and purchase floral products with seamless cart and checkout experiences.

Technologies Used: React.js, Bootstrap 5, Material UI, JavaScript, HTML5, CSS3
