Professional Summary

Detail-oriented **Front-End Developer and WordPress Specialist** with experience building **scalable, responsive, and SEO-optimized web applications**. Delivered **170+ WordPress websites** using **Divi, Gutenberg, Elementor, and custom templates**, and developed **AI-powered React.js dashboards**. Proficient in **AI-assisted (vibe) coding workflows** using modern AI tools to accelerate development, debugging, and UI optimization. Currently expanding skills in **UI/UX design, Webflow, and backend technologies** for full-stack growth.

Experience

React JS Developer – Energetics.AI (On-site)

Feb 2025 – Present

- Built AI-powered dashboards using React.js, TypeScript, GraphQL, and Vite.
- Developed reusable UI components with Tailwind CSS, Bootstrap, Material UI.
- Integrated REST APIs, Apollo GraphQL, OAuth authentication, and payment gateways.
- Utilized AI tools for rapid prototyping, debugging, and performance improvements.
- Deployed applications via GitHub, Bitbucket, Jenkins, and Vercel.

WordPress Developer – TripandTales (Part-Time — Remote)

Feb 2025 – Present

- Built and maintained 170+ WordPress pages using Divi, Gutenberg, and Elementor.
- Created custom templates for travel destinations, food, culture, and guides.
- Executed SEO optimization including WebP images, metadata, headings, and internal links.
- Leveraged AI tools for content structuring, SEO refinement, and layout consistency.

Front-End Developer Intern – SalesQueen Software Solutions (Remote)

Oct 2024 – Dec 2024

- Developed responsive web pages using HTML, CSS, JavaScript, Bootstrap, Tailwind CSS.
- Customized WordPress themes, templates, and plugins.
- Improved UI delivery speed using AI-assisted coding practices.

Projects

BlackDart AI Platforms (Admin & User Dashboards)

2025

- Developed **AI-powered dashboards** including **Admin, Training, Main Dashboard, and App Builder**.
- **Admin Dashboard:** Manage users, create projects, upload documents, configure settings.
- **Training Dashboard:** Train AI models using documents with automated versioning.
- **App Builder:** Auto-generate applications through **AI-driven prompts**.
- Ensured complete **responsiveness** and **reusable component architecture**.

SafeCommute.AI Platform

2025

- Developed complete **front-end from scratch** with **responsive layouts**.
- Integrated **dynamic forms** with APIs and deployed through **Jenkins pipeline**.

Energetics.AI Platforms

2025

- Revamped **services platform** with **modern, responsive UI** using **animations**.
- Built **startup bootcamp site** with **API integration** for form submissions.

- Delivered **mobile-friendly experiences** with optimized performance.

Business Websites (Venture08, Playte.in, GeneAura)

2025

- Developed **dynamic multi-section websites** with advanced **CSS animations** and **API integrations**.
- Built modern **landing websites** with **Tailwind CSS** and **responsive design**.

Static Business Websites

2025

- Developed **fully responsive websites** with engaging **UI** and smooth transitions.
- Focused on **user-friendly layouts** and **cross-browser compatibility**.

RolandLam.com

2025

- Customized **Wix Studio website** and integrated **payment-based lead form system**.
- Maintained **seamless user flow** and form functionality.

TripandTales Travel Platform (WordPress)

2025

- Built 170+ SEO-optimized travel pages using template-driven layouts.
