## Professional Summary

---

- Dynamic and results-driven PHP Developer with over 5+ years of experience in designing, developing, and maintaining robust web applications using PHP frameworks. Seeking to leverage proven technical expertise and strong problem-solving skills to contribute effectively to your team. Eager to apply advanced knowledge of PHP, MVC frameworks, and database management to drive innovation and deliver high-quality solutions in a collaborative environment.

## Work Experience

---

### Senior PHP Developer

Jan 2023 - Present

AnalyticsWeek Inc

- I worked as part of the Team Player group at a product-based company, focusing on both feature development and maintenance. My responsibilities included creating new features, enhancing existing ones, and troubleshooting issues to ensure smooth performance. Some of the key features I developed include:
  - Flashcards: A tool to enhance learning and retention.
  - Blogs: A platform for sharing insights and updates.
  - Career Coach: A feature designed to provide personalized career guidance.
  - Obviousbaba for Career Improvement: Developed a platform dedicated to helping users enhance their career paths through personalized recommendations and resources.
  - Payment Gateway Integration (Stripe): Implemented and managed the Stripe payment gateway to ensure secure and seamless transactions for various services.

## **Sr.PHP Developer**

Jan 2022 - Dec 2022

Reach process outsourcing private limited

- I worked as part of the Team Player group at a product-based company. My role primarily involved identifying and fixing issues in various projects. I gained experience working with both the Yii and Laravel frameworks, which I used for developing and maintaining projects. Additionally, I was responsible for reviving and completing older and midway-stopped projects.
- I also integrated and connected a website's functionality with Billdoo, ensuring seamless operations for billing and invoicing processes.

## **PHP Developer**

Dec 2019 - May 2021

Indiafilings private limited

- I started my career in this company, where I gained extensive knowledge in PHP and web development. I was part of the Team Player group, where my primary focus was troubleshooting and fixing issues as they arose. Additionally, I created simple saving forms using HTML, jQuery, and MySQL to support various project needs.
- This experience laid a strong foundation for my development skills, allowing me to effectively handle both back-end and front-end tasks.
